Smart monitoring with
Polytype Digital Services

//polytype

Maximize machine uptime with Polytype Connect

// Monitor production KPIs and current condition of your machines in real-time
// Visualize upcoming maintenance operations
// Track scrap and unplanned machine stops
// Record and analyse usage of consumables*
// Production statistics per job*
// Compare metrics across machines, lines or production sites
// Modern cloud-based SaaS solution (pay-per-use)
// Responsive web-based user interface

Make your production smarter by connecting your machines to the Polytype cloud. Automatically collect accurate data directly from your equipment. Analyse your production and take data-driven decisions to optimize uptime and productivity of your assets. Convert real-time data to actionable insights and stay aligned with your production goals. See what happens across machines, production lines and factories in a visual and intuitive way – from everywhere by using your computer, smartphone or tablet and our modern web-based user interface. Polytype Digital Services – the key to your digital transformation.

Our portfolio of innovative digital products and services can help protecting your investment and improving your bottom line. A team of qualified specialists provides dedicated support and reliable service using the latest communication technology.

This service requires internet connectivity and OPC-UA ready machine PLC. Older machines and third-party equipment on demand.

*currently only available for digital printing machines
